

INTERBORO MAKES STRANGE MOVE TO DELAY CONTRACTS

Now Wants More Time on
Certificates for Third-Track-
ing Elevated Lines.

The Interborough today asked the Public Service Commission for another delay in its action on certificates for third tracking on the Third and Ninth avenue elevated lines. The contention was, made that the recent agreement with the Manhattan Railway Company, from which it leases the elevated lines and under which the Interborough will pay it an additional \$5.00 a year for "administrative purposes," meant a lot of changes in bookkeeping and accounting. The Interborough's counsel in this matter, Richard Field Rogers, is ill, and that was another cause for asking delay.

The plea caused Chairman McCall of the Public Service Commission to lose his temper. He pounded his desk before him as he declared he would not brook further delay.

"These delays are getting to be nauseous," he declared. "I am going to give these eleven hour requests for delay very little consideration. I am going to get these certificates out of this

office, and if there is further delay the responsibility is going to rest on those who deserve it. I have told President Williams of the R. & T. I would sign up their contracts without waiting for the others if we were delayed much longer."

Puzzled by New Move of the Interborough.

The new move for delay on the part of the Interborough caused much speculation among those who have kept in touch with the subway negotiations. The Interborough has been paying the Manhattan \$10.00 a year in addition to 7 per cent. on its stock ever since the lease was made in 1901, and they were at a loss to understand why the additional \$5.00 would mean much change in bookkeeping. Announcement of Mr. Rogers' illness also was a surprise. He was about his office yesterday, and it was not thought the question of the third-tracking certificates was of sufficient moment to compel his attendance, even if he was well.

The latest flap in the negotiations has caused some persons to wonder if the whole truth has been told regarding the agreement between the Manhattan and Interborough. Considerable scepticism has been expressed over the statement that the Gould interests, and with them the whole Manhattan directorate, would be satisfied with a mere increase of \$5.00, when they were in a position to obtain much more. If they did get more, the plan for time to adjust bookkeeping matters would be better understood.

PUBLIC HEARING ON THIRD-TRACK CERTIFICATES.

The public hearing on the third-tracking certificates before the Public Service Commission is set for 10 o'clock A. M. to-morrow. It is action on this matter the Interborough would delay. The Manhattan people also interested

themselves in the matter. They asked the Public Service Commission to issue the third-tracking certificates to them and not to the Interborough, as had been proposed following the trouble with the Gould interests. It is expected that the Public Service Commission will accede to this request. The proposed certificate to the Interborough will probably be voted down, and the one in favor of the Manhattan, which was drawn last January, will then be approved and passed out to the Board of Estimate. In this event, it will be in time to be acted on with the other contracts and certificates Monday.

**NO NEW CURRENCY BILLS
TILL TARIFF IS REVISED.**

WASHINGTON, March 14.—No currency legislation or any other subject will be taken up by the extra session till Congress disposes of the tariff. This is the position which President Wilson practically agreed upon according to Representative A. Mitchell Palmer of Pennsylvania, Chairman of the Democratic Caucus, who discussed legislation with him to-day. Representative Palmer told the President of the progress of the tariff bill being drawn by the ways and means committee. He said he had no doubt that everything would be ready when the session opened on April 7.

Thomas H. Osborne, an anti-Tamm leader in New York State called on the President to-day.
